Cupolas & Weather Vanes

THE PERFECT WAY TO Crowne your Roof
Welcome...

A Royal Crowne Cupola is the perfect way to “crowne” your roof, giving it that finished appearance it well deserves.

Royal Crowne Cupolas are handcrafted in New Holland, Lancaster County, PA. Owned and operated by three generations of Amish, Royal Crowne Cupolas has been manufacturing cupolas and other outdoor decor since 1980. Royal Crowne manufactures and sells high quality cupolas, weathervanes, copper finials, and other outdoor products for the home and garden.

We stock copper weathervanes and finials in dozens of designs to provide that finishing touch to any rooftop, turret or cupola.

Cupolas in History

Over the past few centuries, cupolas have served to light and ventilate buildings of all kinds, but especially cathedrals, castles and government buildings. Cupolas have also become an important part of architecture, defining exterior building styles. Today cupolas are often used to enhance the style of houses, garages, barns and other buildings.

SELECTING THE CORRECT Cupola Size

A good rule of thumb in selecting the right size cupola for your building is a minimum of 1.25" for every foot of unbroken roof ridge line. For example: if a roof section measures 24’, the minimum size the cupola should be is 30". For roof length 48’ and longer you may want to consider using 2 or 3 cupolas.

- Cupola size is derived from the measurement of the base width.
- Extended bases are available for steeper pitched roofs.
- Cupolas come in 2 or 3 sections for easier shipping and installation.
- All louvered cupolas can provide ventilation for your structure.
- Windows are removable for ease of installing a light fixture.
- 60" & 72" cupolas come standard with double midsections.
- Custom styles and sizes are available.

All Royal Crowne Cupolas with a wind rating are:

- Engineer drawn and approved
- Wind rated with proper installation procedures followed
- Approved for up to 120 mph wind speeds
- Available with Sealed engineer drawings

Most of our cupolas are available and manufactured with a cellular-pvc trimboard that offers “Maintenance Free Solutions” for many years. This material is rot, moisture, and insect resistant and offers a Limited Lifetime Warranty.
The Signature Series Cupolas are highly detailed in construction and craftsmanship and are distinguished from the other lines of cupolas on the market today. Inspired by the beauty of English Castles, the Signature Series will add elegance and distinctive beauty to your home or institution.

- Standard Weathervane Mount
- Cupolas accommodate up to 10/12 roof pitch

The Signature Series Cupolas are manufactured solely of a solid Vinyl-PVC trimboard with a sealed edge technology, which is a rot, moisture, and insect resistant material, and capped with copper providing a maintenance free product. These cupolas are available in louvered or windowed versions.
The Estate Series Cupolas are elegantly designed and will make a great addition to your home, garage, barn, gazebo or any other building. These cupolas are constructed of a Vinyl-PVC trimboard (a maintenance free product), or a select grade of western red cedar and capped with a copper roof. All styles are available in vinyl or cedar.

- Standard Weathervane Mount
- Cupolas accommodate up to 10/12 roof pitch

Cupola Options

Royal Crowne Outdoor accents offers many additional options for the base, louvers, or roof of your cupola. These additional features add class and distinction to your cupola.

- **Clapboard Base**
  A clapboard base is available in all the 100, 200 & 300 series cupolas.

- **Copper Louvers**
  Add copper louvers to any louvered cupola to give it an appearance that will add class to your cupola.

- **Colored Louvers**
  Add colored louvers to any louvered cupola to set your cupola apart from other cupolas. 
  See color chart on page 12.

- **Base & Crown Molding**
  Base & Crown molding is available on any of the 200, 300 or 500 series.

- **Stained Glass**
  Add stained glass to any windowed cupola for a distinctive look. Colors available: Blue, Red & Green.

- **Base Extension**
  Order a base extension(s) with your cupola if your roof pitch is greater than the acceptable pitch.

- **Painted Cupolas**
  Custom painted cupolas are available to match the color and style of your building. Paint can be applied to vinyl & wood cupolas. 
  See color chart on page 11.

- **Base Cutout**
  Your cupola can be ordered with a base cutout to match the pitch of your building.

- **Screening**
  Add screening to any louvered cupola to keep out unwanted pests.

- **Lantern Mount (post lantern)**
  Order a lantern mount in any of the windowed cupolas. This mount will accept most standard post lanterns with a 3" mount.

- **Patina (applied)**
  Order any coppersetop cupola with patina applied to the copper. This gives the copper a nice aged appearance.

- **Staybrite (applied)**
  Order any copper cupola with 3 coats of Staybrite already applied. This will keep your roof shiny and protects it from tarnishing. A 12oz aerosol can is also available.
**Weathervanes & Finials**

Our weathervanes and finials offer a very distinctive touch atop your cupola or structure. Made of copper and brass these will add classical elegance for many years.

---

**Custom Cupolas**

We can do it! Whether you have your own distinctive design or have a place where our standard cupolas just won’t fit, we can manufacture a custom cupola to your specifications.
